Professional Summary

Backend-focused Software Engineer with experience in building scalable backend systems using **Golang, Node.js, and REST APIs**. Skilled in developing secure and high-performance APIs using **Gin Framework, Express.js, PostgreSQL, and MongoDB** following **MVC and Clean Architecture**. Experienced in full-stack development using **React and Redux** and deploying applications using **AWS and Nginx**. Passionate about building efficient backend services and scalable web applications.

Education

- | | |
|--|--------------------------|
| Mar Athanasios College for Advanced Studies(MACFAST), Tiruvalla | 2024 – 2026 |
| <i>Master of Computer Applications (MCA) – CGPA: 8.58/10.00</i> | <i>Tiruvalla, Kerala</i> |
| <ul style="list-style-type: none">• Relevant Coursework: Data Structures and Algorithms, Software Engineering, Operating Systems, Database Management Systems, Web Development, Computer Networks, Probability and Statistics, JavaScript Programming | |
| Girideepam Institute of Advanced Learning(GIAL), Thanikkapadi | 2019 – 2022 |
| <i>Bachelor of Computer Applications (BCA) – CGPA: 7.50/10.00</i> | <i>Kottayam, Kerala</i> |
| <ul style="list-style-type: none">• Relevant Coursework: PHP Programming, Python Programming, Web Technologies, MySQL, Object-Oriented Programming, Computer Fundamentals | |

Experience

- | | |
|---|------------------------------------|
| Mentorow | March 2024 – April 2024 |
| <i>Software Engineer Intern</i> | <i>Kakkanad, Ernakulam, Kerala</i> |
| <ul style="list-style-type: none">• Implemented MVC architecture using Node.js, Express.js, and MongoDB, improving API response efficiency by 60%.• Collaborated with a cross-functional team to develop a new website using React and Redux, and tested backend APIs using Postman, resulting in a 60% increase in development efficiency.• Optimized MongoDB database queries, reducing page load times by 15% and improving overall website performance. | |
| Brototype | Nov 2022 – Nov 2023 |
| <i>Software Development Trainee</i> | <i>Kerala, India</i> |
| <ul style="list-style-type: none">• Completed intensive training in Full Stack Web Development with a focus on JavaScript and backend development.• Built a full-featured E-commerce application using Node.js, Express.js, MongoDB, EJS, JavaScript, and Bootstrap.• Implemented user authentication, product management, shopping cart, order processing, and payment integration features.• Developed responsive user interfaces using React and modern JavaScript concepts.• Applied Data Structures and Algorithms concepts to improve problem-solving and coding efficiency.• Worked with Git, GitHub, REST APIs, Postman, and database design principles. | |

Technical Skills

Languages: Golang, JavaScript, TypeScript, PHP, C, C++, CSS, HTML
Database: MongoDB, PostgreSQL
Technologies: Gin Framework, React.js, Express.js, jQuery, Bootstrap, Node.js, Git, Figma, AWS, Nginx, Postman, Redux, JWT, NodeMailer, Razorpay
Concepts: MVC Architecture, Clean Architecture, REST API Development, Compiler, Operating System, Virtual Memory, Cache Memory, Encryption, Decryption, Database Normalization, Agile Methodology

Projects

Symphony - Backend API Development | *Golang, Gin Framework, REST API, PostgreSQL (2026)*

- Developed backend REST APIs using Golang and Gin framework for managing application data and business logic.
- Implemented CRUD operations, routing, and database connectivity using PostgreSQL for efficient data handling.
- Applied middleware, validation, and structured architecture to ensure secure and scalable API performance.

Mentorow | *React.js, Node.js, Express.js, EJS, CSS, MongoDB, Tailwind, Redux (2023-24)*

- Developed the server side using MVC architecture which improved request-response handling efficiency by 60%.
- Integrated NodeMailer and backend validations, and modularized models to enhance system security and performance by 40%.

Zntra.com (E-commerce) | *React.js, Node.js, Express.js, EJS, CSS, MongoDB, Bootstrap (2023)*

- Led the development of an MVC-based e-commerce platform using Node.js, resulting in a 40% increase in daily transactions within the first quarter.
- Designed and deployed a scalable RESTful API using Node.js and Express framework, improving data retrieval speed by 30%.
- Implemented delivery tracking and integrated Razorpay for secure online payments.
